

## PRODUCT INFORMATION

**PRODUCT NAME** VASOIL VASINAX Grease A

**DESCRIPTION** *VASINAX Grease A, is a fine quality Lithium base multi-purpose grease, with a high lubricated stability, at a very wide range of temperatures. It is a non soluble grease, with outstanding tackiness properties, strong oxidation and structural stability. It is not influenced by temperature changes and provides efficient oxidation resistance. Its ability to recover when the drop point is overtaken, makes it attractive in the a wide range of applications.*

## PRODUCT USE

*VASINAX Grease A, is recommended to be used as a multipurpose grease in ball bearings and in any rolling element as well as in pumps, chains, shafts, cams and central systems. It is ideal for the lubrication of automotive systems.*

### ADVANTAGES

1. Protects against rust and corrosion.
2. Multi-purpose capability.
3. Resistance to water, caustic or acid-washing.
4. Wide range of usable temperatures.
5. No thermal breakdown and deterioration.

## SPECIFICATIONS

DIN 51520, DIN 51825

## CHARACTERISTICS ( TYPICAL PROPERTIES )

VASINAX GREASE A	ASTM	2	3
Soap Type		Lithium	Lithium
NLGI Number		2	3
Worked Penetration at 25 °C	D- 217	265-295	220-250
Drop Point, °C	D- 566	180	180
Color		Amber	Amber
