

PRODUCT INFORMATION

PRODUCT NAME VASOIL VASPLEX WR

DESCRIPTION **VASPLEX WR** is extreme-pressure water resistant high temperature calcium sulfonate complex grease.

PRODUCT USE

VASPLEX WR is designed for use on wire ropes, winches, open gears and chains working in severe circumstances.

VASPLEX WR can be used also in marine applications, cement works, mines and quarries, ports (e.g. travelling cranes) off shore and other “heavy” industry applications.

ADVANTAGES

1. High resistance to water washing.
2. Excellent fluidity in low temperature
3. Efficient oxidation stability.
4. Excellent protection from rust, wear and corrosion.

SPECIFICATIONS

DIN 51502

CHARACTERISTICS (TYPICAL PROPERTIES)

VASPLEX WR GREASE	ASTM	
Soap type		calcium sulfonate complex
Operating temperature °C		-20°C to +150°C
NLGI Number	D- 217	0
Worked Penetration at 25 °C	D- 217	330 - 360
Drop Point, °C min	D- 566	200°C
Color		CARAMEL
