

PRODUCT INFORMATION

PRODUCT NAME VASOIL VAS-CYL 555

DESCRIPTION **VAS-CYL 555** is a supreme quality, high performance cylinder oil of SAE 50 viscosity grade, recommended for use in low speed crosshead marine diesel engines using a wide range of residual fuels.
VAS-CYL 555 is manufactured from highly refined mineral base oils and special additive packages thus providing effective protection of the cylinder liners and piston rings.

Performance Features

- Supreme protection against corrosive wear through neutralisation of the combustion sulphuric acids along with excellent oxidation resistance and thermal stability
- Excellent detergent and dispersant properties, preventing piston ring sticking and reducing deposit build up, both leading to reduced maintenance cost
- High lubrication properties through the thick oil film and advanced load carrying properties
- Long storage stability, maintaining homogeneity at all ambient Temperatures

PRODUCT USE

VAS-CYL 555 is recommended for the cylinder lubrication of the crosshead diesel engines with separate cylinder lubrication systems, operating at high power output and under severe thermal stress.

SPECIFICATIONS

VAS-CYL 555 meets the requirements of the leading OEMS
